Soil contamination is at or below the applicable corrective action standards in accordance with R18-12-263.01 Source removal or control has been completed	Tabulated water level data								
 Soil contamination is at or below the applicable corrective action standards in accordance with R18-12-263.01 Source removal or control has been completed 	Tabulation of receptor wells within ¼ mile of facility property boundary								
R18-12-263.01 Source removal or control has been completed	REQUIRED JUSTIFICATION:								
·									
Natural attenuation is occurring	Source removal or control has been completed								
	Natural attenuation is occurring								

IF APPLICATION IS APPROVED, ADEQ WILL:

- Send applicant a no further action (NFA) letter;
- Require access to the property (only if applicant is the current property owner);
- Require that ownership of select monitor wells be transferred to ADEQ; and
- Perform additional corrective actions necessary to obtain LUST case closure.
